Portfolio Highlights for the Quarter Ended June 30, 2018

The Company realized servicing fee income of \$11.5 million from its MSR portfolio, interest income of \$12.0 million from its RMBS portfolio and other income of \$3.5 million primarily related to unrealized gains on derivatives. The unpaid principal balance for the MSR portfolio stood at \$19.1 billion as of June 30, 2018 and the carrying value of the MSR portfolio ended the quarter at \$231.5 million. Net interest spread for the RMBS portfolio stood at 0.94% and the debt-to-equity ratio on the aggregate portfolio ended the quarter at 4.7x.

The RMBS portfolio had a book and carrying value of approximately \$1.9 billion at quarter end June 30, 2018. The portfolio had a weighted average coupon of 3.9% and weighted average maturity of 25 years.

In order to mitigate duration risk and interest rate risk associated with the Company's RMBS, Cherry Hill used interest rate swaps, swaptions, TBAs and Treasury futures. At quarter end June 30, 2018, the Company held interest rate swaps with a notional amount of \$1.3 billion, swaptions with a notional amount of \$195.0 million, TBAs with a notional amount of (\$22.8) million and Treasury futures with a notional amount of (\$136.6) million.

As of June 30, 2018, Cherry Hill's GAAP book value was \$19.36 per diluted share, a 3.9% reduction, net of the second quarter dividend, from book value per share of \$20.15 as of March 31, 2018.

Dividends

On June 14, 2018, the Board of Directors declared a quarterly dividend of \$0.49 per share of common stock for the second quarter of 2018. The dividend was paid in cash on July 31, 2018 to common stockholders of record as of the close of business on June 29, 2018. Additionally, the Board of Directors declared a dividend of \$0.5125 per share on the Company's 8.20% Series A Cumulative Redeemable Preferred Stock for the second quarter of 2018. The dividend was paid in cash on July 16, 2018 to preferred stockholders of record as of the close of business on June 29, 2018.

Core Earnings

Core earnings is a non-GAAP financial measure and is defined by the Company as GAAP net income (loss) applicable to common stockholders, excluding realized gain (loss) on RMBS, realized and unrealized (gain) loss on investments in Excess MSR and MSR, realized and unrealized gain (loss) on derivatives, and changes in fair value of MSR primarily due to realization of expected cashflows (runoff). Core earnings is adjusted to exclude outstanding LTIP-OP units in the Company's Operating Partnership and dividends paid on preferred stock. Additionally, core earnings excludes (i) any tax (benefit) expense on unrealized (gain) loss on MSR and (ii) any estimated catch up premium amortization (benefit) cost due to the use of current rather than historical estimates of constant prepayment rates for amortization of Excess MSR. Core earnings include yield maintenance payments received in connection with the sale of the Company's Excess MSR. Core earnings are provided for purposes of comparability to other issuers that invest in residential mortgage-related assets. The Company believes providing investors with core earnings, in addition to related GAAP financial measures, gives investors greater transparency into the Company's ongoing operational performance. The concept of core earnings does have significant limitations, including the exclusion of realized and unrealized gains (losses), and may not be comparable to similarly-titled measures of other peers, which may use different calculations. As a result, core earnings should not be considered a substitute for the Company's GAAP net income (loss) or as a measure of the Company's liquidity.

The following table provides a reconciliation of net income to core earnings for the three months ended June 30, 2018 and 2017:
