The Company realized interest income of \$3.1 million, from its Excess MSR portfolio, servicing fee income of \$1.6 million from its MSR portfolio and realized interest income of \$4.1 million from its RMBS portfolio. Carrying value of the Servicing Related Assets portfolio ended the quarter at \$97.3 million. In order to mitigate duration risk and interest rate risk associated with the Company's RMBS, Cherry Hill used interest rate swaps, swaptions, TBAs and Treasury futures. At June 30, 2016, the Company held interest rate swaps with a notional amount of \$321.3 million, swaptions with a notional amount of \$85.0 million, TBAs with a net notional amount of \$1.0 million and Treasury futures with a notional amount of \$45.6 million.

As of June 30, 2016, Cherry Hill's GAAP book value was \$19.80 per diluted share, a 0.6% increase from book value per share of \$19.68 as of March 31, 2016.

Dividend

On June 16, 2016, the Board of Directors declared a quarterly dividend of \$0.49 per share of common stock for the second quarter of 2016. The dividend was paid in cash on July 26, 2016 to stockholders of record as of the close of business on June 30, 2016.

Core Earnings

Core earnings is a non-GAAP financial measure and is defined as GAAP net income (loss) applicable to common stockholders, excluding realized gain (loss) on RMBS, realized gain (loss) on derivatives, realized gain (loss) on acquired assets, unrealized gain (loss) on derivatives, unrealized gain (loss) on investments in Excess MSRs and unrealized gain (loss) on investments in MSRs and adjusted to exclude outstanding LTIP units in the Company's operating partnership. Additionally, core earnings excludes (1) any tax (benefit) expense on unrealized (gain) loss on MSRs, (2) any estimated "catch up" premium amortization (benefit) cost due to the use of current rather than historical estimates of CPR for amortization of Excess MSRs and (3) the amortization of MSRs. Core earnings are provided for purposes of comparability to other issuers that invest in residential mortgage-related assets. The Company believes providing investors with core earnings, in addition to related GAAP financial measures, gives investors greater transparency into the Company's ongoing operational performance. The concept of core earnings does have significant limitations, including the exclusion of realized and unrealized gains (losses), and may not be comparable to similarly-titled measures of other peers, which may use different calculations. As a result, core earnings should not be considered a substitute for the Company's GAAP net income (loss) or as a measure of the Company's liquidity.

The following table provides a reconciliation of net income to core earnings for the three months ended June 30, 2016 and 2015:
